

THE 2019 SUSTAINABLE

DEVELOPMENT GOALS/CONDITIONAL **GRANT SCHEME PROJECTS**

IMPLEMENTATION REPORT

THE 2019 SUSTAINABLE

DEVELOPMENT GOALS/CONDITIONAL GRANT SCHEME PROJECTS

IMPLEMENTATION REPORT

JANUARY, 2021

KADUNA STATE PLANNING & BUDGET COMMISSION

EXECUTIVE SUMMARY

he 2019 CGS intervention is geared towards achieving SDGs 3 and 4. These Goals centers around "Good health & wellbeing" and "Quality Education" respectively. This is necessary because Goals 3 and 4 feed directly to other Goals of the SDGs. Health has a central position in the global agenda and is closely linked to over a dozen targets in other goals related to urban health, equal access to treatments, and non-communicable diseases, among others. In fact, the SDGs represent a unique opportunity to promote public health through an integrated approach to public policies across different sectors. More so, Quality education affects other sustainability goals. Without quality education in place, many of the other goals become less sustainable. Education helps each step evolve. Giving everyone access to quality education helps bridge the gap in gender inequality (Goal 5: Gender Equality). With quality education, we can work towards peace (Goal 16: Peace, Justice and Strong Institutions). Ultimately achieving the goals of quality education can help to improve the quality of lives (Goal 1: No Poverty& Goal 2: Zero Hunger).

The Kaduna State Government has been making frantic efforts towards achieving each of the 17 Goals by 2030. Building on the principle of "leaving no one behind", the states emphasizes a holistic approach to achieving sustainable development for all. Concerted policy actions and projects have been formulated and implemented by the State. All the 17 SDGs Goals and strategies to achieving them have been integrated in the State Development Plan (SDP) and through the State's Project Support Unit (PSU), a total of 57 projects centered around health and education were awarded in 2019 and completed in 2020 across all the 23 Local Government Councils (LGC) of the State,into three (3) Senatorial Zones. The figure below depicts the distribution of projects across the three (3) Senatorial Zones.

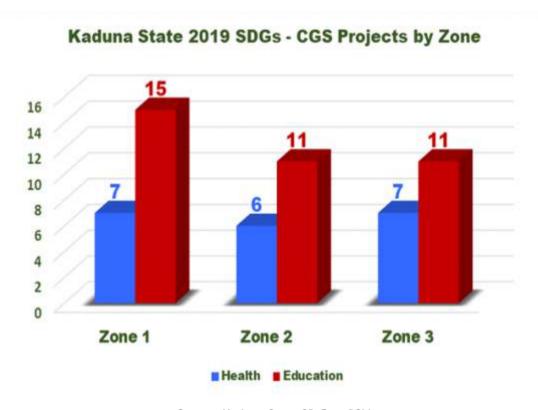

Figure 1. Kaduna State 2019 SDGs -CGS Projects

Source: Kaduna State SDGs - PSU

The Projects comprises of 20 Health Projects and 37 Education Projects. Each of the 20 health projects has a package of 8-bed primary health care clinic, hospital equipment, borehole and external toilets and that of the education package comprises of two-seater pupils' furniture, teacher furniture, borehole and toilets. The locations and beneficiaries of these projects were selected after joint needs assessment that was conducted by a team consisting of representatives of Ministries of Education and Health as well as staff of the SDGs - PSU. Communities and Schools that are in dire need of these facilities were identified and prioritized for the execution of these interventions.

All the 57 Projects have been successfully completed and handed over to the Ministries of Health and Education to enable them to put into use for the benefit of the Communities. See the summary sheet of the 57 projects executed.
