WHAT IS A BUDGET?

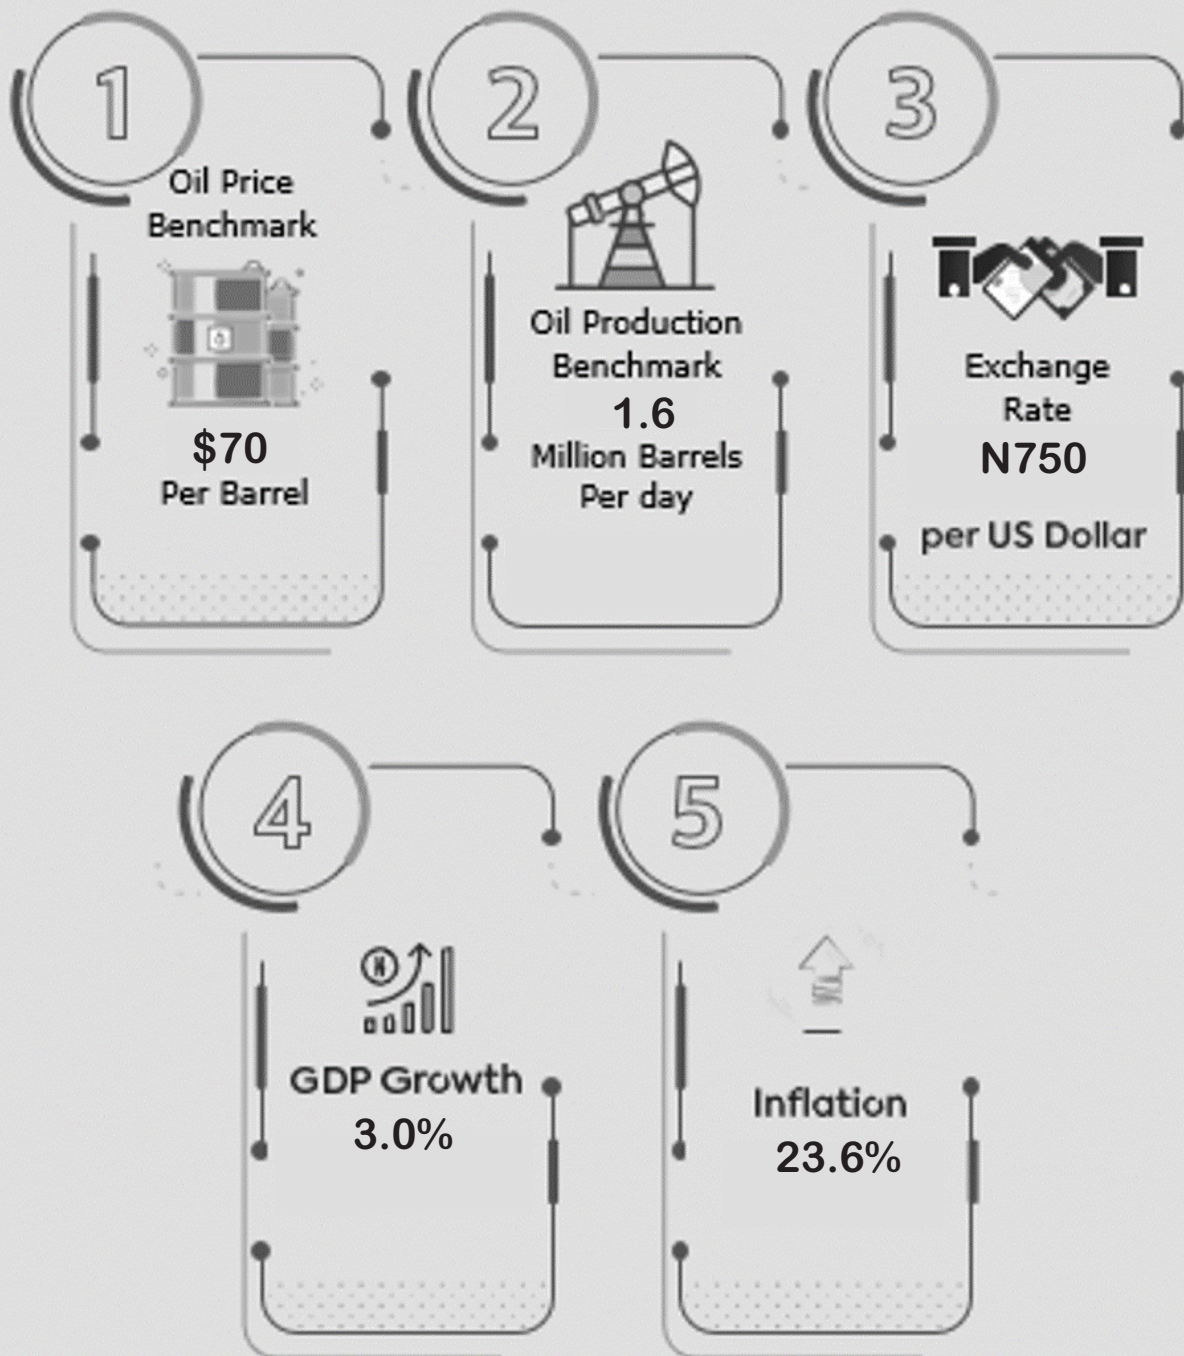

A Budget is like a plan; it shows what the government is expecting as income (popularly called revenue) and what the government plans to spend the money on, which is called expenditure.

A Budget is a document which also has details about how the government plans to spend your money. This money maybe your personal share of Nigeria's wealth which the Government has collected on your behalf: e.g revenue, or your contribution, which you pay as tax to the government. The Budget also contains other details: for instance, it will show whether the government intends to save or borrow money within the specified year.

Local Governments, State Governments, and the Federal Government all have Budgets. The Budget document is called an Appropriation Act. Appropriation is the legal authority granted to the Government to spend your money on your behalf. This is done by the Legislature - the National Assembly or State House of Assembly.

When you vote for anyone in an election, you are simply giving the person the legal authority to approve and spend money on your behalf.

PROTOCOLS

- The Deputy Governor,
- The Right Honourable Speaker,
- Principal Officers of the Kaduna State House of Assembly,
- Honourable Members of the Kaduna State House of Assembly,
- The Chairman, APC Kaduna State Chapter,
- Members of the Kaduna State Executive Council,
- Permanent Secretaries,
- Clerk and the Deputy Clerk of the House,
- Gentlemen of the Press,
- Ladies and Gentlemen.

1. Mr. Speaker, Honorable Members, fellow citizens of Kaduna State, distinguished ladies and gentlemen, it is with gratitude to God that I address you today on the occasion of the presentation of the Year 2024 Budget to the State House of Assembly.
2. This is the first budget of our administration. It is through this budget that we shall move decisively to fulfil the promises we made to the good people of Kaduna State. As you are aware, our administration is anchored on 7 pillars;
 - (I) Safety and Security.
 - (II) Upgrade of Infrastructure.
 - (III) Strengthening Institutions.
 - (IV) Trade and Investment.
 - (V) Agriculture.
 - (VI) Investment in Human Capital, and
 - (VII) Nurturing Citizens Engagement.

The central policy thrust of our administration is Rural Transformation. We are committed to revitalizing our rural economies through massive infrastructural development.

3. We assumed office at a most difficult and challenging time. Our people have been struggling to stay afloat in these harsh economic climate. As a government, we have been unrelenting in fashioning and implementing policies, programmes and projects to bring succour to the poor, underserved and the vulnerable. We are determined to reverse the negative development indices of Kaduna State. We are creatively and innovatively addressing the challenges of poverty and youth unemployment. We are prioritizing women and youth empowerment.
4. Our administration places high premium on Human Capital Development. Consequently, Education and Health Sectors are receiving priority attention. We are determined to revitalize the Agricultural Sector in order to create jobs for our teeming youth population and ensure food security in our state. To ensure a safe environment for farming and business activities, we have made safety and security our topmost priority. Our security agencies have made remarkable progress in securing our state despite challenges.
5. In line with our commitment to deepening citizens participation in governance, we held a

Townhall Meeting on the 2024 - 2026 Multi-Year Budget on December 12, 2023. At the meeting, our citizens made observations and inputs into the 2024 Budget. We have incorporated most of the inputs into the budget that I am presenting to this Honourable House. We are determined to mainstream a process - led and participatory approach to budget making in Kaduna State. We are servants of the people and must at all times consult the people in matters that affect their welfare and security.

6. Mr. Speaker, Honourable Members, Ladies and Gentlemen, this budget has been prepared cognizant of the current economic realities in the country. Removal of subsidy on Premium Motor Spirit (PMS), high inflation, and unification of the exchange rate have made it imperative for sub-national governments to make necessary adjustments in their policy, programme and project considerations. States must also adopt fiscal discipline, transparency, and accountability through efficiency in allocation and utilization of available resources.

 - ii. Providing funds for ongoing projects and inherited capital liabilities while embarking on new priority projects within the multi-year time frame of 2024-2026.
 - iii. Improving the internal revenue generation and revenue collection capacity of the relevant State agencies.
