## **PRIMARY HEALTH CARE STAFF MAPPING REPORT**

### **Executive Summary**

In order to provide Minimum Service Package at the Primary Health Care level in Kaduna State, it became necessary to undertake Primary Health Care staff mapping to enable the Board know its current staff strength and gaps vis-à-vis the State Service Delivery Plan.

Furthermore, it will provide insight on where vacancies exist and the overall picture of manpower required at the Primary Health Care Board to deliver on its mandate optimally. These details will enable proper workforce planning forecasting and management.

### **Key Findings:**

It was discovered that the Board as at December, 2024 was operating at 37% of its required workforce based on the Service Delivery Plan defined by the State. Therefore it will require a conscious effort to fill the vacancies alongside replacements.

It was also discovered that the skill mix of the existing workforce was skewed therefore replacement and recruitments must be deliberately targeted towards addressing the imbalance. In a nutshell the mapping enabled the State to ascertain the staffing levels, analyse staff distribution per Facility per LGA and determine training needs.

## **CHAPTER ONE**

### **1.0 Introduction**

- 1.1 The State Primary Health Care Board was established vide law No. 5 of 2020 (amended) to supervise and coordinate all Primary Health Care activities in the state. Furthermore, the baseline assessment of Primary Health Care staff became necessary owing to the requirement of HOPE-GOVERNANCE (HOPE-Primary Health Care) to ascertain the current staffing level in the State Primary Health Care Board.
- 1.2 This initiative is to uncover the existing workforce and their skill mix. Then to determine the actual gaps across the facilities that will be able to perform Primary Health Care services in line with the Minimum Service Package and the State Service Delivery Plan.
- 1.3 Further to above, the baseline assessment will enable Kaduna State Primary Health Care Board take well informed decisions in terms of workforce planning, recruitment, replacement, succession planning that will make the Primary Health Care sub-sector deliver on its mandates.
- 1.4 The exercise seeks to develop a multi-year, costed-worker recruitment and deployment plan, which will address identified staffing gaps so as to strengthen the health workforce and improving Primary Healthcare Service Delivery in the State.

### **1.5 Objectives of the Baseline Exercise:**

- i. Conduct a comprehensive enumeration of Primary Health Care Workers in Kaduna State.
- ii. Identify and map health worker duty stations across the 23 Local Government Areas (LGAs) of the State.
- iii. Assess health workers' distribution, qualifications, and specialization to determine staffing gaps.
- iv. Develop a multi-year, costed health-worker recruitment and deployment plan to address deficiencies.
- v. Provide policy recommendations for sustainable workforce planning and improved health outcomes.

### **1.6 Methodology**

A mixed-methods approach was used to ensure a comprehensive analysis:

- Establishment of the mapping Committee.
- Conducted Planning meetings.
- Commenced the exercise across the 23 LGAs by distributing audit forms for all categories of staff to fill and thereafter be endorsed by supervising officers, Local Government Health Secretaries and Zonal Coordinators respectively.
- Collation and harmonisation of audit forms from the LGAs.
- Updated staff records on the Human Resource Management Information System using the audited forms and credentials to digitize staff records on the database.
- Carried out a gap analysis using the number of staff available against the State Service Delivery Plan.
- Financial Analysis was made estimating recruitment, training, and deployment of staff for the next 5 years.
- Produced a draft report
- Validated draft report by the sector stakeholders.
- Presented for Executive Council approval.

## CHAPTER TWO

### 2 Primary Health Care Staffing

Following the conduct of the exercise, the following staff distribution were established across the different layers of the State Primary Health Care Board.

**Table 1:** Overview of Current Staffing across various layers of the Board

S/N	Layer	Total No. of Staff
1.	Headquarters	77
2.	Zonal Offices	37
3.	23 Local Government Health Authority Offices	447
4.	1,106 Primary Health Care Facilities	4,679
	<b>Total</b>	<b>5,240</b>

**Table 2:** Staff Composition by Cadre

S/N	CADRE	AVAILABLE
1	MO	14
2	CHO	300
3	Nurse/Midwife	522
4	CHEWS	1,676
5	JCHEW	483
6	EHO	43
7	Pharm Tech	160
8	LAB	345
9	MRO	255
10	Nutrition	97
11	EHT Tech	754
12	Health Educator	214
13	Health Attendant/Assistant	263
	<b>SUB-TOTAL</b>	<b>5,126</b>
1	Headquarters (Technical & Admin Staff)	77
2	Zonal Offices (Technical & Admin Staff)	37
	<b>SUB-TOTAL</b>	<b>114</b>
	<b>GRAND TOTAL</b>	<b>5,240</b>

**Table 3:** Staff Distribution by Gender

S/N	SEX	TOTAL
1	Males	1,944
2	Females	3,296
	<b>TOTAL</b>	<b>5,240</b>

#### 2.1 Staff and their Qualifications

2.2 The exercise was able to ascertain the actual and current qualification of all staff of the Board. This is because during the course of their career/employment some acquired additional qualification and migrated from one cadre to another through conversion/change of cadre. The list of staff and their qualification is hereby attached as Annex I.

2.3 **Ad-hoc Staff:** Kaduna State has a total number of 1,739 adhoc staff that are being funded under Basic Health Care Provision Fund Direct Facility Funding across the 255 Primary Health Care Facilities in the State (list attached as Annex II).

## 2.4 Distribution of Staff by LGAs and Zones

2.5 Distribution of Health Care Workers across the 23 Local Government Areas (LGAs) by their Zones within Kaduna State is as follows.

**Table 4:** Number of staff at the Headquarters

S/N	LGA	NO. OF STAFF
1	HEADQUARTERS	77

**Table 5:** Number of staff serving in LGAs within Zone I (Northern Senatorial District)

S/N	LGA	NO. OF STAFF
1	IKARA	153
2	KUBAU	210
3	KUDAN	122
4	LERE	209
5	MAKARFI	200
6	S/GARI	255
7	SOBA	241
8	ZARIA	364
	<b>SUB – TOTAL</b>	<b>1,754</b>

**Table 6:** Number of staff serving in LGAs within Zone II (Central Senatorial District)

S/N	LGA	NO. OF STAFF
1	B/GWARI	154
2	CHIKUN	482
3	GIWA	233
4	IGABI	349
5	K/NORTH	387
6	K/SOUTH	333
7	KAJURU	200
	<b>SUB – TOTAL</b>	<b>2,138</b>

**Table 7:** Number of staff serving in LGAs within Zone III (Southern Senatorial District)

12	Health Educator	564	214	350
13	Health Attendant/Assistant	1,487	263	1,224
	<b>SUB-TOTAL</b>	<b>14,076</b>	<b>5,126</b>	<b>8,950</b>
1	Headquarters (Technical & Admin Staff)	113	77	36
2	Zonal Offices (Technical & Admin Staff)	51	37	14
	<b>SUB-TOTAL</b>	<b>164</b>	<b>114</b>	<b>50</b>
	<b>GRAND TOTAL</b>	<b>14,240</b>	<b>5,240</b>	<b>9,000</b>

### 3.1 Gap Analysis by Facility

The mapping committee also conducted a dip dive analysis at facility level for all the cadres available and the gaps based on the State Service Delivery Plan. This is to ensure the right number of personnel are provided across all the facilities (see Annex III).

**Table 10:** Multi Year Retirement Forecasting (2025-2030) Across the 23 LGAs

REPORT SUMMARY	2025	2026	2027	2028	2029	Grand Total

Zangon Kataf	12	5	9	8	3	<b>37</b>
Zaria	9	9	11	12	29	<b>70</b>

### 3.1 Other Findings

#### A. Shortage of Staff:

The mapping revealed an acute shortage of PHC staff at the Centers thereby hindering them from providing 24 hours service at the ward focal facilities. While the clinics are also grossly understaffed as some of the staff serving in the PHCs were pulled from the clinics to the Centers to meet the minimum requirement of the Basic Health Care Provision Fund.

#### B. Training Needs Assessment:

The mapping also uncovered some knowledge, skill and attitude gaps across the 1,064 service provision points of the Primary Health Care Board.

The quarterly performance assessment of staff across the Primary Health Care system, was instrumental to uncovering these gaps. Most staff require refresher trainings on their primary roles to up skill their knowledge. Also due to acute shortage of the Midwives other cadres like CHEWs will be considered for training on lifesaving skill.

#### C. Retention Challenges:

Some of the challenges encountered around retention are mostly attributed to poor remuneration and the presence of Federal Health Institutions who are paying above what the State Government is paying. Additionally, it was observed that inadequate accommodation for the health personnel in the rural areas also contribute to the retention challenges.

### 3.2 Implementation Plan

SN	Recommendation	Responsible	Timeline
1.	Include 1,800 recruitment of fresh Primary Health Care staff annually in the State budget for the next 5 years representing 20% of the gap identified.	State Primary Health Care Board	Every budget cycle from 2025 to 2029.
2.	The 23 Local Governments to include 60% of personnel cost in their annual budgets	23 Local Government Chairmen	Every budget year.
3.	Ensure replacements as soon as vacancy occur to avert depletion of the workforce.	State Primary Health Care Board	When vacancies occur
4.	The state may consider implementing 100% CONHESS CONMESS to place PHC Staff on same salary with neighboring	Kaduna State Government	As soon as possible

	states. This will mitigate negative manpower turnover.		
5.	Recruitments should be well targeted towards filling the gaps for critical cadres that will improve the health indices in the State.	State Primary Health Care Board	Over the next 5 years

### **3.3 Monitoring and Evaluation**

**3.4** The monitoring and evaluation department of the Board should ensure quarterly assessment are made and forwarded to management for appropriate actions on the staff distribution at the Primary Health Care Board for necessary action.

### **3.5 Recommendations for Improvement**

**3.6** The conduct of Primary Health Care staff mapping should be an annual exercise which would be presented to the State Executive Council for information and approval.
